

The White House

The White House is home to the President of the United States. Located in Washington, D.C., at 1600 Pennsylvania Avenue, the White House contains 132 rooms, 35 bathrooms, 8 staircases, and 3 elevators! The first president to live inside this huge home was President John Adams. Since that time, each new president and first family have resided in the White House. It is sometimes called the Executive Mansion or the President's Palace.
